WHAT WE OFFER

CERTIFICATION PROGRAMS

Certification curriculum, on demand learning, and educational training workshops designed to increase professional proficiency in insurance data and information governance.

ANNUAL CONFERENCE AND REGIONAL CHAPTERS

Annual Conference and regional chapter meetings to discuss emerging issues and innovations impacting the insurance and financial services industry.

PUBLICATIONS AND PERIODIC WHITEPAPERS

As a benefit to our members, our Knowledge Center offers the latest data management information in a variety of formats including publications, periodicals, research, and white papers.

EDUCATIONAL WORKSHOPS & WEBINARS

Our workshops and live webinars cover a variety of current and trending issues impacting data professionals and the insurance industry. These sessions can be customized to fit your organization's educational needs.
